Subject: Hecla Star Site Study Begins Week of July 9, 2018
Attachments: Hecla Star Flyer-July 2018.pdf

Dear Community Member,

I want to let you know that July 9th EPA will start an investigation at the old Hecla Star site, near the town of Burke. The Coeur d'Alene (CDA) Work Trust's contractors will be completing the study and they expect the fieldwork to continue through mid-August. This investigation will build on earlier site studies, and will help answer questions about the extent of metals contamination. It is part of the CDA Basin Cleanup Project. For information on work hours, a project map, and other details, please see attached flyer.

We know this work poses an inconvenience to residents. Thank you for your patience while we complete this project. Please feel free to contact me with questions or concerns.

Thank you,

Bonnie Arthur
Project Manager
EPA R10, Office of Environmental Cleanup
